

Quest Play Card, p1

Quest is the go-to, global ISV to address your customers' Office 365 migration, management and security needs across any workload – Azure AD, Exchange Online, OneDrive for Business, SharePoint Online and Teams.

Customers

130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000

Awards

Gartner cited Quest as the ONLY vendor to deliver all 40 of the 40 essential features and functionalities expected in an Office 365 migration tool, according to it's [2019 Market Guide for Cloud Office Migration Tools](#).

Microsoft awards & recognition include:

- Top 5 ISV for co-sell wins and ACR
- 2019 PoY Finalist – Healthcare
- 2018 US ISV PoY: Winner's Circle
- 2016 and 2015 Messaging PoY Finalist

Conversation Starter

Elevator Pitch

O365 migrations are complex and fraught with risk. Controlling costs, mitigating risk and complexity is a challenge for many customers in the midst of migration decisions—Office 365 now has 200 million commercial monthly active users, and nearly 60% of sensitive data stored in the cloud is in Office 365.

Quest's ZeroIMPACT migration solution leads customers through a successful migration and effectively manages and secures the new cloud or hybrid environment.

Only with Quest can you simplify the migration, security and management of O365 as well as Azure AD, Exchange Online, OneDrive for Business, SharePoint Online and Teams.

MODERN WORKPLACE SECURITY | O365 ADOPTION AND SECURITY MANAGEMENT

Reduce Risk and Downtime with Quest Office 365 Migration & Management

Retire Microsoft cloud quota and scorecard metrics: ACR, ACA, M365 customer adds

Help your organization manage risk in a time of evolving threats and regulatory demands during your O365 migration. Migrate up to 10x faster with Quest's ZeroIMPACT migration solution. Control costs, mitigate risk and use automation to simplify O365 security and management tasks, reducing both risk and complexity.

Qualify for free deployment services* from Microsoft partners and up to \$3,000 in Free Azure* in collaboration with Microsoft through the Azure Sponsorship program. The credit can be used to do a POC or deployment on Azure or offset deployment costs for up to 60 Days.

S/W: Quest MMAD, MMEX, Content Matrix, Essentials for O365 (Migration to O365)
Professional Services:
Assessment/Deployment/Configuration/Migration

Solution Overview

Quest: Your go-to for tackling Office 365 challenges:

- **Conquer any migration:** AD cleanup. O365 tenant to tenant (Teams, SPO, OneDrive, Exchange Azure AD). Box/Dropbox/EFSS to OneDrive. On-prem SharePoint & Exchange to O365.
- **Manage and secure O365 users, licenses, content and permissions:** SharePoint, OneDrive, Groups & Teams.

Benefits Statement

- **Move:** Get all your workloads to Office 365 with little to no disruption to your end users
- **Manage:** Reduce the time, clicks and scripts to manage your Office 365 or hybrid environment
- **Secure:** Extend your existing security and compliance framework to your ever evolving Office 365 environment

OFFER

	Intro Email with Offer					
	Telescript (see below)					

TELESCRIPT	Understand	Questions to Ask / Statement to Make	Look For, Probe On
	Understand Current State	What workloads are you planning to migrate to Office 365?	Migration of anything!!! Office 365 tenants, Teams, OneDrive, Exchange email /public folders / PSTs, 3 rd party email archives, file shares, SharePoint, Box, Dropbox, Gmail/G Drive, Lotus Notes mail & apps, AD and Azure AD
	Expose Challenger Questions	How are you planning to migrate the content? How many resources do you have dedicated to completing your migration? Do you have a good understanding of what needs to be moved and what can be cleaned up? How confident are you in planning for and executing a successful migration?	Native tools / manual scripts – tedious, time-consuming and prone to errors. Lack of internal expertise and resources to complete the project. Lack of pre-migration planning and lack of confidence. Need for professionals who can provide a thorough discovery and assessment of current environment in order to plan effectively to ensure migration success.
	Surface Business Value	What is the timeline for completion? Why is that date important? What happens if you miss the deadline? What's the business impact if users experience downtime or data loss during migration?	Concerns with meeting M&A-related deadlines, End of Support dates, etc. Impact to user productivity means lost revenue. Reputation damage to IT department
	Peak Interest	O365 migration is a transformational IT project. Why take unnecessary risks and put your business at risk? Go with vendors you can count on. Quest provides unparalleled experience: 184M users managed, 99 petabytes of SharePoint data supported, 95M AD users migrated and 74M mailboxes migrated (which is double ANY other vendor).	Use Conversation Starter as talking points: Elevator Pitch, Solution Overview and Benefits
	Request Meeting	How high of a priority is it to find a solution to help reduce migration risk, cost and time?	Can we schedule a meeting to understand Quest tools and discuss our free Assessment?

Office 365 Expansion - Getting to the cloud

Get to the cloud – Office 365

Consider these numbers..

**of IT people feel
pressured by
management to
move to the
cloud**

**of Fortune 500
companies have
purchased Office
365 in the past
12 months**

**of sensitive data
stored in the
cloud is stored in
MS Office**

**Azure AD
accounts
compromised
each month**

Business challenges

Quickly adopt cloud technology with minimal user disruption

Mitigate security threats in your expanding complex environment

Maintain control despite infrastructure sprawl and chaos

Develop the people, processes and technology necessary to govern more efficiently

Common approaches

Charge ahead

Put in more hours

Use native tools
or PowerShell

Assume Microsoft
has it all covered

But the risk with these approaches is ...

Charge ahead

Unknown hurdles
& compromised
security

Put in more hours

Your team
already lacks time
and resources

Use native tools
or PowerShell

Yes they're free
... but have
critical gaps

Assume Microsoft
has it all covered

Unexpected
delays &
additional work

How this affects you

Decreased
confidence, and
reputation
damage

Increase in
security incidents

Loss of control
and failure to
meet timelines

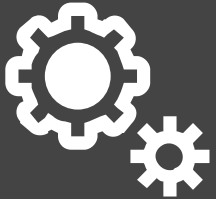

Spotlight on flaws

What if you could ...

Get all your workloads to Office 365 with little to no disruption to your end users

Reduce the time, clicks and scripts to manage your Office 365 or hybrid environment

Extend your existing security and compliance framework to your ever evolving Office 365 environment

Quest is your go-to expert to help **move**, **manage** and **secure** your entire Microsoft environment.

Cloud | Hybrid | On-Premises

Customer story

Major International Mining Company

One of the world's largest commodities companies based in the United States with more than 30,000 users worldwide and over 400TBs of data.

"[Metalogix] Content Matrix is one of my favorite employees. It's extremely reliable and tirelessly does exactly what you ask of it. Our cost, time, and resource savings were monumental."

- Program Manager

Challenge

- Complex M&A activity
- Need to review, modify, and migrate hundreds of employees across two global SharePoint instances
- Others failed to meet expectations and the company determined it needed an experienced partner

Results

- Migrated 20 TBs of data to the latest Microsoft SharePoint version over a 15-month period
- Achieved 2GB/Hour On-Premises, 1GB/Hour to O365 Cloud on a 250 mb network
- Effectively and efficiently transitioned and modified 100+ employee permissions
- Saved \$1.25 M with Metalogix, compared to using other tools and services or migrating manually

Go-to experience you can rely on

DOUBLE

of mailboxes migrated to Exchange over competition

184M

Active Directory accounts managed

Or more than 7x the number of mates living in Australia!

95M

AD accounts migrated

Or more than 10X the number of people living in NYC!

166M

user accounts audited

If 1 user = 1 mile, then that's 347 trips to the moon...and back!

5X

More Exchange mailboxes managed than folks visiting the Eiffel Tower annually!

99PB

Of SharePoint data supported

Wait, did you say Petabytes?!!

Go-to products – the full list!

Migration Manager for Active Directory

Migrate, consolidate and restructure AD.

Secure Copy

Migrate and consolidate file server data.

Migration Manager for Exchange

Migrate or consolidate to new Exchange on premise or Office 365 environment.

On-Demand Migration

SaaS-based Office 365 tenant-to-tenant migrations of Exchange, OneDrive, SharePoint and Teams.

On-Demand Migration for Email (ODME)

Fast, reliable migration to Office 365 with zero footprint (SaaS).

Migration Manager for PSTs

Identify and migrate Outlook PSTs.

Migration Manager for Email Archives

Migrate third-party email archives to Office 365.

Migrator for Notes to Exchange

Migrate Notes email and calendars to Exchange/O365.

Coexistence Manager for Notes

Seamless coexistence between Notes and Exchange/O365.

Migrator for Notes to SharePoint

Migrate Notes applications to SharePoint/O365.

Metalogix Content Matrix

Handle complex SharePoint/O365 migrations.

Metalogix Essentials for Office 365

Migrate SharePoint Online, OneDrive, Box, Dropbox, Google Drive and file shares.

Metalogix Expert

Free assessment tool for SharePoint/O365 migration.

Change Auditor

Security and compliance auditing for AD/Azure AD, AD Queries, Exchange/Exchange Online, File Servers, Logon Activity, OneDrive for Business, SharePoint/SharePoint Online and SQL Server.

Change Auditor Threat Detection

Proactive user behavior-based threat detection for Microsoft environments

On Demand Audit

Azure-hosted SaaS that tracks all changes made across AD, Azure AD and Office 365.

InTrust

Collect and store huge amounts of native or third-party workstation logs to meet compliance while making data easily searchable for reporting, troubleshooting and security analytics.

Enterprise Reporter Suite

Security and compliance assessment, reporting and remediation for Microsoft on-premises and cloud platforms.

Recovery Manager

Disaster recovery solutions for AD and Exchange. Perform full-forest recovery and automate virtual lab creation to test disaster recovery plans.

On Demand Recovery

SaaS solution for fast, secure Azure AD and Office 365 backup and recovery.

Active Roles

Automate user and group management to overcome the native shortcomings of AD and Azure AD.

GPOAdmin

Control and simplify Group Policy management and administration.

On Demand Group Management

SaaS solution to control the chaos of managing Azure AD, Office 365 and hybrid AD groups.

Active Administrator

Simplify management of AD, Azure AD, DNS and digital certificates. Ensure the health and availability of AD with troubleshooting and diagnostics.

On Demand License Management

Get visibility into O365 licenses and the reporting capabilities needed to achieve optimal license utilization.

Metalogix Archive Manager

Archive, manage and secure files and Exchange email.

Metalogix Backup for SharePoint

Quick and efficient backup and restore for SharePoint.

Metalogix ControlPoint

Secure and protect SharePoint from internal and external threats.

Metalogix Sensitive Content Manager

Manage SharePoint content and enforce data loss prevention policies.

Metalogix Diagnostic Manager

Monitor, diagnose and resolve SharePoint performance issues.

Metalogix Essentials for Office 365

Centrally manage users, content and licenses in Office 365.

Metalogix Replicator

Synchronize content between multiple SharePoint environments.

Metalogix StoragePoint

Optimize SharePoint storage with leading remote blog storage solution.
